ID	Prompt
13	<pre>###Task Description: You are given an instruction, two responses to evaluate (Response A and Response B), and two checklists (Checklist A and Checklist B, corresponding to Response A and Response B, respectively) that reveal different perspectives, and leave the evaluation decision to you. 1. First, answer a small, important subset of checklists' items in English based on the instruction and its associated response. 2. Next, generate feedback in English that highlights the reason behind the selection of the more appropriate response. 3. Finally, generate the following sentence, where X is either A or B: "Therefore, I choose X as the better response."  ###Instruction: [INPUT]  ###Response A: [RESPONSE_A]  ###Response B: [RESPONSE_B]  ###Checklist A: [CHECKLIST_A]  ###Checklist B: [CHECKLIST_B]</pre>
14	<pre>###Task Description: You are given a chat history between a user and an assistant, along with two responses to evaluate (Response A and Response B) from the assistant to the last question asked by the user, and two checklists (Checklist A and Checklist B, corresponding to Response A and Response B, respectively) that reveal different perspectives, and leave the evaluation decision to you. 1. First, answer a small, important subset of checklists' items in English based on the chat history and its associated response. 2. Next, generate feedback in English that highlights the reason behind the selection of the more appropriate response. 3. Finally, generate the following sentence, where X is either A or B: "Therefore, I choose X as the better response."  ###Chat History: [INPUT]  ###Response A: [RESPONSE_A]  ###Response B: [RESPONSE_B]  ###Checklist A: [CHECKLIST_A]  ###Checklist B: [CHECKLIST_B]</pre>
