ID	Prompt
8	<pre>###Task Description: You are given a response and several concepts that, in a generic manner, outline the main skeleton of its associated chat history between a user and an assistant. 1. Generate 1 to 3 distinct checklist items in English by following the response-to-chat direction, which involves formulating questions about criteria that are not specified in the chat history but are suggested by the response. 2. The checklist items must bring dynamism through referring directly to the provided response. 3. The checklist items must avoid prejudging the response's quality and must be framed as open-ended questions to be more descriptive than simple binary ones. 4. Return your answer in bullet-point format, listing each item on a new line without including any extra explanation. ###Response: [INPUT] ###Chat History Concepts: [CONCEPTS]</pre>
9	<pre>###Task Description: You are given a chat history between a user and an assistant, along with several concepts that, in a generic manner, outline the main skeleton of the assistant's response to the last question asked by the user in a generic manner. 1. Generate 1 to 6 distinct checklist items in English, to evaluate the response. 2. The checklist items must bring dynamism through referring directly to the provided response. 3. The checklist items must avoid prejudging the response's quality and must be framed as open-ended questions to be more descriptive than simple binary ones. 4. Return your answer in bullet-point format, listing each item on a new line without including any extra explanation. ###Chat History: [INPUT] ###Response Concepts: [CONCEPTS]</pre>
