ID	Prompt
1	###Task Description: You are given an input. 1. Identify different linguistic concepts—such as terminology, grammar, style, fluency, and so on—from the input in English that a translator should pay attention to for consistent translation into any language. 2. Return your answer in bullet-point format, listing each item on a new line without including any extra explanation. ###Input: [INPUT]
2	###Task Description: You are given an input. 1. Generate 1 to 4 distinct concepts from it in English. 2. These concepts must capture only the input's main skeleton, each expressed in a generic rather than detailed manner. 3. Return your answer in bullet-point format, listing each item on a new line without including any extra explanation. ###Input: [INPUT]
3	###Task Description: You are given an input that is either a chat history or a response. 1. Generate 1 to 4 distinct concepts from it in English. 2. These concepts must capture only the input's main skeleton, each expressed in a generic rather than detailed manner. 3. Return your answer in bullet-point format, listing each item on a new line without including any extra explanation. ###Input: [INPUT]
